

HR Data Governance and Protection

Unlock the Power of HR Data for Trustworthy, Consistent, and Confidential Insights, and Strategic Business Growth.

COURSE OVERVIEW

Data can be an asset, or it can be a liability! When it comes to operations, finance, customer or sales data, organisations have a well-established data management and governance process with a clear understanding of its meaning and the outcomes expected. When it comes to Human Capital Data Governance, the situation is very different. If HC Data Governance is a term you are not familiar with, you are not alone! At its most basic, it is a methodology or philosophy that aims to manage the link between people, process and technology to ensure people data is trustworthy, consistent, confidential and does not get misused. It is not a program. It is not a technology. It is not even a strategy. It is a mindset and a culture where quality data is achieved, maintained, valued, protected and utilized to drive the business.

This workshop provides a brief, timely and up-to-date overview of the key structures, issues and challenges associated with Human Capital Data Management and Governance.
